KA2 Cooperation for innovation and the exchange of good practices

2018-1-RO01-KA201-049454

50.YIL SECONDARY SCHOOL SALİHLİ / MANİSA-TURKEY

We are pleased to report that first dissemination event was organized by 50.Yıl Secondary School. We had a meeting with our teachers in order to inform them about the Project details and the content of the Project on the 5th Nov. 2018. We have declared that we have an Erasmus+ Project with the coordinator from Romania and the partners from Italy, Greece, and Turkey. On the other hand we made a presentation about what is Cultural Heritage and what are European values. It was explained about the objectives of this project which are the acquisition by the participants of a set of values and of the afferent behavioral patterns based on the viewpoints of the orthodox, catholic and muslim religions, the conversion of these behavioral patterns into active democratic and multicultural civil engagement templates adapted to the European framework of the 21st century, as well as the development of active citizenship and entrepreneurship based on the spiritual values of these religions.

As the administrators of the 50th Year Middle School; we contributed to the dissemination of our project locally by informing the culture directorate of our town. We provided access to more audiences by presenting the summary news of our project on the official facebook page and website of our school. In order to reach more people in Salihli regarding the content of the project, we made news to local newspapers.
